

# \$MUSKRAT White Paper

## Abstract

-----

\$MUSKRAT is a meme coin forged in the digital sewers of MuskRats.io. More than a token, it's a symbol of glitchborn rebellion against bloated financial systems. Fueled by satire, powered by Solana, \$MUSKRAT is a treasury takeover in memetic form.

## Origins and Lore

-----

Born from the MuskRats universe, \$MUSKRAT is the chaotic echo of glitch-mutated rats who overran the Treasury. Backed by glyphlight and sealed by the Don himself, this token is part prophecy, part provocation.

## Tokenomics

-----

- Name: MUSKRAT
- Symbol: \$MUSKRAT
- Supply: 1,000,000,000
- Chain: Solana
- Decimals: 9
- Trading Platform: Raydium (decentralized exchange)

## Utility

-----

- Used to unlock F.A.M. job offers and sewer bounties

- Tied to access gated Codex entries, NFT drops, and relic minting
- Future staking, scroll auctions, and governance potential via the Sewer DAO

## Integration with NFTs

-----

\$MUSKRAT can be used to:

- Reward holders
- Bridge events between mint phases
- Fund the creation of Battle Rat gear and job scrolls

## Roadmap

-----

1. Token Launch & Airdrop
2. Liquidity Pool (Raydium)
3. Codex Scroll Access via Token Gate
4. Sewer Marketplace Integration
5. Meme War Expansion

## Disclaimer

-----

\$MUSKRAT is a meme coin with deep lore integration. It carries no financial guarantees, promises of profit, or centralized backing. This is sewer magic. This is digital chaos.

"They thought it was a joke. Now it's glitching the ledger."
